

Pink Circles

By Kärt Urman

During my travels I had this pink yarn and hook in my bag and absolutely no patterns. So I just started to crochet and this is what came out of it.

This is my first try of charting crochet pattern. It's a little wonky and I'm far from mastering the program I used (SymbiCro). If you have any questions don't hesitate to contact me.

Size: you can make it as big as you want.

Material: Depends on size. I made very small shawl and used 500 yards /460 meters of Egyptian cotton.

Hook size: depends on the yarn you choose

Pattern notes:

Both small and big circles are started from the chain of 8 stitches.

Only three types of stitches are used:

- Chain stitch
- Double stitch
- Slip stitch

Joining the motifs. I join the motifs as I go using slip stitch. Big circles are joined with 8 slip stitches when making doubles. Small circles are joined to big circles with 2 slip stitches.

Directions:

I started my work from neckline and then worked row by row to the top. Small circles I crocheted after all big circles were finished and attached to each other.

Each row must have odd number of big circles. Join as many big circles to a row at neckline as big shawl you want to make.

Below you find schema:

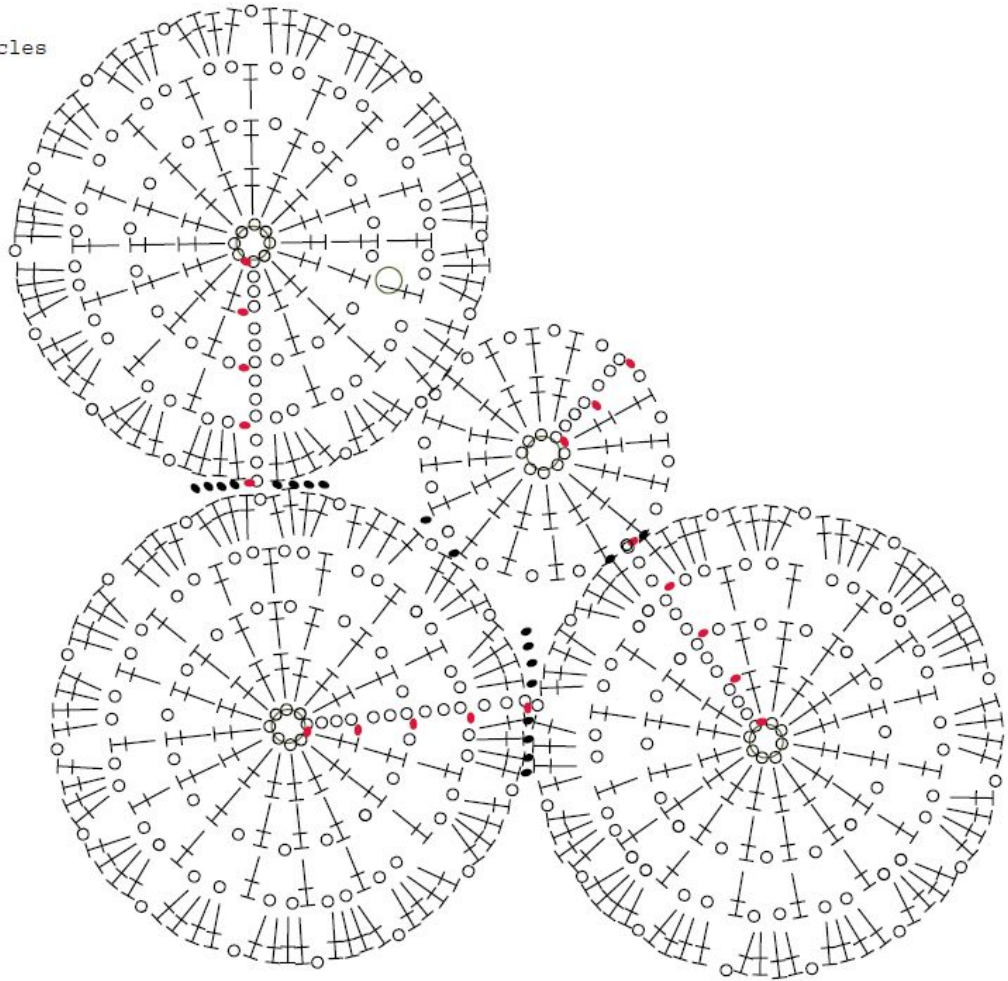

Chart:

Chart for Pink Circles

Finishing:

Weave in the ends. Wash the shawl and block it – that will make the stitches look more even and overall the shawl will look nicer.
